# Free upgrade

## Get triple glazing performance for free this month only!

Offer ends **30th** of this month at **11:59pm**

Plus up to **35% off**

Plus **0% INTEREST FREE**  
PAYMENT PLANS

### Three times the benefit with nothing extra to pay

- ✓ **Warmer**  
Outstanding thermal performance of (1.0 u-value) matches most triple glazing helping you save money on your energy bills.
- ✓ **More secure**  
Laminated construction is tougher than other security glass and meets Police Approved Secure by Design Accreditation as standard.
- ✓ **Quieter**  
A new acoustic barrier layer blocks out more outside noise than standard triple glazing.

### Win-win-windows and doors

Our new triple performance glazing offers big improvements in warmth, security and noise reduction and all for free until the 30th of this month.

That's good news if you're thinking of turning on the heating, as a better insulated home needs less energy to keep it cosy.

You won't be disturbed either, as our new triple performance windows block more outside noise.

And what could be more comforting than a home that you know is more secure? Our triple performance glazing is tougher than triple glazing, with a laminated pane that resists break in attempts.

## More strengths that make sense for your home

### ✓ Environmental benefits

All our windows contain EcoMax glass that is made from 40% recycled material, and comes with a commitment to plant a tree for every order.

### ✓ Light weight

Triple glazing performance without the weight disadvantage that makes triple glazing tough on hinges and more complex to install

### ✓ UV reduction

A subtle tint helps reduce unwanted glare and removes 99% of UV to protect your furnishings

### ✓ Supplied as standard

During the promotion period this upgrade is FREE OF CHARGE for all new customers.

## How our new triple performance glazing compares

Innovations in materials and manufacturing technology mean our new, triple performance double glazing units will make your home more livable than ever—performing better all round than other types of glazing.

Factor/Product	Typical double glazed unit	EcoMax double glazed unit	Comfort EcoMax (coated)	Typical triple glazed unit	Triple performance free upgrade
Energy efficiency (Ug centre pane value)	1.4W/m²K	1.2W/m²K	1.2W/m²K	1.0W/m²K	1.0W/m²K
Noise reduction	Good 30dB	Good 30dB	Best 35dB	Better 31dB	Best 35dB
Cost	£	££	£££	£££££	£££££
Light transmittance	82.5%	79%	78.4%	69.1%	66.5%
UV reduction	45%	62%	99%	77%	99%
